GENERAL INFORMATION

HEALTH/SAFETY CONCERNS

The SDDA will follow the protocols put in place at each facility. Please contact the Sioux Falls Convention Center and/or, the Sheraton for any health or safety concerns. We value the safety and health of our attendees, exhibitors, speakers, and staff. We encourage you to take the precautions that make you feel the most comfortable and protected.

HOTEL ACCOMODATIONS

Sheraton Sioux Falls & Convention Center
1211 N West Ave.

Sioux Falls, SD 57104

Phone: 605.331.0100

Request the "SDDA24" block, rate \$139/night. Please register under individual names and not companies. Or click QR code to make your reservation online today!

Please contact melissa@sddental.org with any reservation issues or concerns.

Other hotels in the area:

Holiday Inn & Suites: 605.331.2040

Ramada by Wyndham: 605.937.6486

MEETING ACCOMODATIONS

Classroom comfort is important when attending CE courses. Please come prepared; dress in layers and bring a sweater or light jacket. This will help ensure your adequate temperature level during the meetings.

To better accommodate persons with disabilities, notify SDDA at 605-609-1152.

CLINICIAN/COURSE HANDOUTS

Course handouts will NOT be available at the sessions. If provided by the clinician, handouts will be available to print by going to:

sddental.org/meetings-events/sdda-annual-session/ce-speakers

EXHIBITORS RECEPTION

Thursday, May 16, 2024, 3pm-5pm

This event provides dentists and their staff face to face time with exhibitors. Hear about their latest products and services in a relaxed environment. Light appetizers and beverages will be available.

CONTINUING EDUCATION INSTRUCTIONS

The SDDA offers numerous hours of continuing education (CE) credits during Annual Session. To optimize your session experience, please plan ahead for the courses you wish to attend. Proof of attendance will be included on your name badge to be used to record session codes.

Five hours of CE Clinical-Exhibits credit will be granted to dentists, hygienists, and dental assistants who are registered for the Annual Session meeting. SDDA continuing education that is clinical can also be academic for dentists only.

Keep your name badge as proof of attendance.

Log your CE hours on the SD State Board of Dentistry's website sdboardofdentistry.org.

*Do you have SD State Board questions?
Visit them in the Exhibit Hall on Thursday, May 16th!*

PLANNING COMMITTEE

Dr. Thane Crump	President
Dr. Rick Fuchs	President-elect
Dr. Jonathan Reth	Vice President
Dr. Kelli Jobman	Speaker of the House
Dr. Michelle Scholtz	Secretary-Treasurer
Dr. Mark Bierschbach	N District Rep
Dr. Jay Benusis	BH District Rep
Dr. Nolan Carson	S District Rep
Dr. Alan Sandor	Member at Large
Dr. Bryan Johnson	Member at Large
Dr. Jon Schaack	SDDF Rep
Mr. Paul Knecht	Executive Director
Mrs. Tia Hertel	SDDA Staff
Mrs. Melissa Afdahl	SDDA Staff
Mrs. Amy Petersen-Kolb	SDDF Staff

South Dakota Dental Association (SDDA) Approved PACE Program Provider for FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority or AGD endorsement. 4/1/21 to 3/31/25. Provider #219272.

JAMES BECK, KEYNOTE SPEAKER

Sponsored by Delta Dental of SD Foundation

James Beck is a transformative culture change leader, inspirational pay-it-forward speaker, and the founder of Give Beck: Live By Giving. With a remarkable journey that involved giving away all his possessions, James embarked on a mission to serve someone in every state across the nation. This social experiment sparked an extraordinary chain reaction of kindness as he inspired those he served to pay it forward. Through his impactful presentations, James motivates individuals to embrace a life of giving, unveiling the profound connection between a “service mindset” and true happiness, as well as fulfilling relationships. His teachings extend beyond personal fulfillment, demonstrating how incorporating service into the workplace can elevate sales, enhance business performance, and transform a corporate culture into a harmonious and cooperative community. James Beck is dedicated to empowering others to create positive change by harnessing the transformative power of kindness and service.

EXPERIENCE THE POWER OF KINDNESS, GRATITUDE, & PAYING-IT-FORWARD

TIME	8:00am-9:00am
CE HOUR	1 Practice Management

DELTA DENTAL OF SD REPRESENTATIVES

Sponsored by Delta Dental of SD

(1)**Ann Schwartz**, Vice President of Government Programs and Professional Services, has worked with Delta Dental since 2017. Prior to joining the Delta Dental team, Ann was the Deputy Director of SD Medicaid. (2) **Jessica Edwards**, Government Programs Policy Analyst, has been with Delta Dental of South Dakota since 2018. Jessica came to Delta Dental from the SD Department of Human Services where she worked in the Division of Long Term Supports and Services.

DEMYSTIFYING MEDICAID, MEDICARE, & MORE

Government programs like SD Medicaid, Medicare, and Indian Health Service make it possible for a large percentage of the population to access preventive and restorative dental care. People with coverage are twice as likely to visit the dentist, so government programs make it easier for dental offices to serve a representative cross section of the community. Understanding the purpose and structure of each program is crucial to the success of seamlessly incorporating government programs into your office.

TIME	9:30am-10:30am
CE HOUR	1 Practice Management

DiSC Training: Staff Retention for Your Office

“Imagine being compared to a Rottweiler because a team member sees you as intimidating! That’s my story. I never considered myself an intimidating person but someone on my team did. It wasn’t until we did a DiSC assessment that I realized my direct style came across as intimidating to some people. It was an eye-opener. Fast forward many years and I now facilitate DiSC sessions helping others understand their style, how it plays out at work and how it may appear to others. I’m a fan of DiSC because I’ve seen firsthand the difference it can make for a team. DiSC is one of the few assessments that people can immediately apply to their work. It’s easy to understand, to remember, and to put into action. Not only is it applicable at work but I often have people tell me how they’ve applied it in their personal lives with family and friends. Everyone who completes the assessment receives a detailed report that aids in self-awareness. The report also provides recommendations of how to interact more effectively with individuals in each of the other styles.”

- Mary Sand

VISIT THE EXHIBIT HALL TO LEARN MORE

FRANCISCO RAMOS-GOMEZ, DDS, MS, MPH

Sponsored by Delta Dental of SD Foundation

Dr. Ramos-Gomez is a professor in the Division of Pediatric Dentistry and currently serves as Chair of the Division of Preventive and Restorative Oral Health Sciences at the School of Dentistry and the Executive Director for the UCLA Center for Children’s Oral Health. He has been a pediatric dentist for 38 + years with specific focus and research in the areas of early childhood caries prevention, oral disease risk assessment, and community health with an emphasis on underserved and vulnerable populations. He conceptualized and co-founded the Center to Address Disparities in Children’s Oral Health to identify the cultural, environmental, workforce, behavioral, and biologic factors associated with health disparities among ethnic/racial groups in order to enhance health professionals’ ability to target children likely to be at risk for dental caries.

INFANT ORAL CARE (AM) *(Recommended to attend both, CAMBRA covered at ea. session)*

The **AM** objectives include: Describe the disparities in early childhood caries prevalence (ECC) in underserved communities. Identify risk factors for dental disease in the infant to 5 year old age group. Discuss and review Caries Management by Risk Assessment. Demonstrate proficiency in delivering infant and maternal oral health in different providers practices. Evidence-Based practice on Protocols on the standard of care for Infants and Toddlers in the USA. Document and appropriate use of anticipatory guidance for dental health services for young children. Use of self-management goals for parents and caregivers. Team approach and roles for dental providers at all levels.

TIME	9:30am-Noon
CE HOURS	2.5 Academic or Clinical

MINIMALLY INVASIVE PEDIATRIC DENTISTRY (PM)

The **PM** objectives include: Periodicity scale related to risk assessment, clinical status, salivary markers and behavioral home strategies and interventions on the prevention of Early Childhood Caries (ECC). Describe the different care-paths or minimally invasive techniques for a disease prevention management model. Describe based on age and risk a combination therapy approach of remineralization for white spot lesions in the infant to 5 year old age group. Use of Glass Ionomers and SDF as part of a preventive approach. Clinical Cases and discussion on quality improvement metrics.

TIME	1:00pm-4:00pm
CE HOURS	3 Academic or Clinical

MARY GOVONI, CDA, RDH, MBA

Sponsored by Delta Dental of SD Foundation

Mary brings 50+ years of experience in dentistry to the team. She is a Certified Dental Assistant, and a Registered Dental Hygienist, with experience in general and specialty practices both clinically and as an administrator. She has focused on speaking and consulting with dental teams on infection prevention, OSHA compliance, HIPAA compliance, ergonomics, chairside efficiency, and team communication and development.

ERGONOMICS IN DENTISTRY- SELF CARE FOR THE DENTAL TEAM

We talk to our patients about the importance of preventing oral disease, and yet we don’t take enough time to put our own words into practice when it comes to prevention of ergonomic injuries. Are you sacrificing your body to care for your patients? Pain, numbness, and the eventual physical toll of working chairside can end careers prematurely – but it doesn’t have to be this way. Putting ergonomic principles into practice can protect your body today and your livelihood tomorrow. This course offers the entire dental team an introduction to ergonomics and the risk factors that may cause work-related musculoskeletal injuries. From the front desk to treatment rooms, the program focuses on creating a healthy work environment for the team through posture, workplace design, equipment selection, positioning, and increased visibility within the oral cavity. When the team can work in their most comfortable environment, they can deliver optimal care to their patients.

TIME	9:30am-Noon
CE HOURS	2.5 Practice Management

WHAT’S NEW WITH OSHA, CDC, & INFECTION PREVENTION AND CONTROL?

OSHA requires that employees in dental practices participate in annual safety training, which includes general workplace safety, bloodborne pathogens, hazard communication, hazardous waste compliance requirements, and any additional information that is pertinent to current infection prevention recommendations. This course will enable participants to review their safety protocols and make any necessary updates.

TIME	1:00pm-3:00pm
CE HOURS	2 Academic or Clinical

SOUTH DAKOTA HELPLINE CENTER

Sponsored by Helpline Center

(1) **Catelyn Reimnitz, MA** is the Suicide Prevention Coordinator at the Helpline Center. (2) **Tehra Nelson, MSW, CSW**, is the Mental Health Training Coordinator at the Helpline Center. Their work focuses on survivors of suicide loss, meaning those who have lost a loved one to suicide. QPR training stands for question, persuade, refer, and it will look at the three steps anyone can learn to help prevent suicide.

QPR SUICIDE PREVENTION TRAINING

To save lives and reduce suicidal behaviors by providing innovative, practical, and proven suicide prevention training. We believe that quality education empowers all people, regardless of their background, to make a positive difference in the life of someone they know. QPR stands for Question, Persuade, and Refer — the 3 simple steps anyone can learn to help save a life from suicide. Just as people trained in CPR and the Heimlich Maneuver help save thousands of lives each year, people trained in QPR learn how to recognize the warning signs of a suicide crisis and how to question, persuade, and refer someone to help. Each year thousands of Americans, like you, are saying "Yes" to saving the life of a friend, colleague, sibling, or neighbor.

TIME	10:30am-Noon
CE HOURS	1.5 Practice Management
INFORMATION	30 person maximum

MARY WOLF, LPC-MH, BCC (BE WELL PROGRAM)

Mary is the president of Veritee Partners LLC, a coaching and consulting business designed to promote wellbeing and success for physicians, executives, dentists, and the companies they serve. Veritee Partners offers assessments and consultation for healthcare systems to build wellbeing programs and cultures. Mary is a Board-Certified Coach and holds certifications in executive, life, and spirituality coaching.

BE YOUR OWN LIFE COACH (BE WELL LUNCH)

Attend this hands-on momentum building session to get your life back on track and going in the direction of your best life. Learn the proven Veritee Truth process to bring about the small shifts that can make a big difference. Find out how to continue working on your coaching goals with Mary Wolf, through the SD Dental Association's Be Well Program. 1-Identify what needs to shift in your life to be more meaningful and fulfilling. 2-Build a strategy to attain more of what you want. 3- Learn how the SD Dental Association Be Well services can help you with your personal and professional goals.

TIME	Noon-1:30pm
CE HOURS	1.5 Practice Management
PRICE	\$25 per person

The SDDA offers three FREE and CONFIDENTIAL counseling/coaching sessions per person!

————— Every dentist and team member across the state has access to this service —————

————— Sessions can be used to build a strategy for work or home —————

Other Topics

Parenting | Burnout | Conflicts at work | Decision making | Purpose and meaning in work | Retirement planning

We continue to partner with Mary Wolf on developing a culture of wellbeing and providing these individual sessions.

South Dakota
 DENTAL ASSOCIATION

804 N EUCLID; STE 103, PIERRE, SD 57501

STEPHANIE LARSCHEID, MBA

Stephanie has served as Executive Director of Prairie Family Business Association for seven years. She has a proven record of building relationships with members and developing programs that add value to family businesses. Stephanie earned her undergraduate degree from Iowa State University Ivy College of Business and an MBA from the University of South Dakota Beacom School of Business.

KEEPING THE BUSINESS IN THE FAMILY

Here's how to have a successful succession. You've grown and built your business over years or decades, what's next? We'll talk about the next generation of your business, including steps and processes to transfer ownership. We'll talk about how to best communicate about the next stage of business and life, to family, employees, and patients.

Join this discussion about creating a meaningful succession, whether you are stepping away from the business or deeper into the business.

TIME	2:00pm-3:30pm
CE HOURS	1.5 Practice Management

TRACY PALECEK, NCC, LPC, QMHP

Tracy is a Licensed Professional Counselor and Human Services professional who has a passion for helping those who are facing adversity. Tracy has over 20 yrs of experience working with trauma, poverty, and resiliency in those she has served. She has served as an advocate, program developer, disaster relief responder, community trainer, mental health therapist and mentor. She loves to work within systems to create change and help people find meaning and purpose in their lives. She is the CEO and owner of Palecek Therapy & Consulting and is blessed to spend her time between her therapy practice, public speaking, and consulting in areas of mental wellness, poverty reduction, and interpersonal skill building.

REFRAME UP

This presentation focuses on the latest research in the areas of burnout and stress relief. You will learn Cognitive Behavioral Therapy techniques to actually reframe your thoughts (to change how you feel!) around difficult situations, clients and even co-workers. We will also explore some new exciting ways to keep yourself healthy to work in the helping field. Renew yourself and continue to work with purpose and joy!

TIME	2:00pm-4:00pm
CE HOURS	2 Practice Management

SUNDEEP ALAPATI, DO

Dr. Alapati is a head and neck surgeon with expertise in treating head and neck cancers. He offers clear explanations to each patient to calm their anxiety regarding conditions and treatment options.

UPDATES ON ORAL CAVITY CANCER

The general dental practitioner plays a critical role in oral cancer awareness, screening, and diagnosis. Dentistry is also involved in treating the long-term dental side effects of treatment for head and neck cancer. The following talk is a summary of the longitudinal role of dentistry in head and neck cancer and an update on the management of oral cavity cancer.

TIME	3:30pm-4:30pm
CE HOUR	1 Academic or Clinical

Sponsored by Delta Dental of SD Foundation

- fruit cups
- protein balls
- and more

CARISSA REGNERUS, RDH, MA, FADHA

Carissa began her career as an educator at USD Dental Hygiene in 2001. She is an Associate Professor and the Lead Clinic Director. In addition to clinical practice and instruction, she has taught courses in Local Anesthesia, Dental Materials, Nutrition, Embryology/Histology, and Community Dentistry, and serves as the department's Interprofessional Education champion. She has assisted students with their clinical radiographs and has been involved in several radiology CE and certification courses. She serves on the Board of Directors for the American Dental Hygienists' Association.

RADIOLOGY-CURRENT BEST PRACTICES

Following the presentation, participants will be able to identify radiation safety measures and recognize why it is important to adhere to them. They will also be able to recognize common errors in radiology and identify ways to prevent and/or troubleshoot them. Additionally, we will discuss the evolution of dental radiology and what the future trends are.

TIME	8:00am-10:00am
CE HOURS	2 Radiology

COMMUNITY HEALTH WORKER PANEL

Sponsored by Community Health Workers

CHWSD INCREASING ACCESS & ADDRESSING SOCIAL DETERMINANTS OF HEALTH TO IMPROVE ORAL HEALTH CARE

Learn more about South Dakota's developing Community Health Worker (CHW) workforce and the impacts that CHW have on increasing access to care to improve oral health care and to address social determinants of health. A CHW is a frontline public health worker who is a trusted member of and/or has an unusually close understanding of the community served. This trusting relationship enables the worker to serve as a liaison/link/intermediary between health/social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery. As a reimbursable service through South Dakota Medicaid, CHWs in South Dakota are not only making a huge impact on improving patient outcomes, but also securing significant reimbursement to offset program expenses.

TIME	8:00am-10:00am
CE HOURS	2 Practice Management

MARY GOVONI, CDA, RDH, MBA (see bio on pg. 5)

Sponsored by Delta Dental of SD Foundation

DENTAL ASSISTANTS: BECOME A SUPER STAR ON YOUR TEAM

As a dental assistant, have you ever been frustrated by your role in the dental office? Too often assistants feel left out of the loop, ignored by meeting and trade show exhibitors, and perceived by doctors as "overhead" rather than valued producers. It's time for dental assistants to feel, value, and take pride in their contributions to excellence in patient care and the success of the practice. This high energy presentation uses lecture, participation, and technology demonstrations to explore the many ways that dental assistants can enhance the productivity and success of a dental practice while simultaneously increasing their personal and professional satisfaction and engagement.

TIME	8:00am-11:00am
CE HOURS	3 Practice Management

NEW DENTIST SOCIAL

GATES OPEN - 6:05PM | GAME START - 7:05PM

1001 N W Ave, Sioux Falls, SD 57104

Sponsored by Goodman Gravley Insurance Source

Join us at The Birdcage for the Sioux Falls Canaries Baseball Opener against the Fargo-Moorhead, RedHawks! Dentists that are 10 years or fewer out of dental/grad school attend for FREE! However, we encourage all dentists to attend! Registration on back page. Food and drinks will be available! Come network with your peers, share your thoughts for continuing education and emerging leader ideas with your SDDA staff. We will meet on the Double Deck. KG the Canary will make an appearance and to end the evening - FIREWORKS!

GREGORY PSALTIS, DDS

Dr. Psaltis has been a pediatric dentist for 43 years, most of which have been in private practice in Olympia, Washington. His varied career has included 23 years as a speaker, both nationally and internationally. He is currently involved with two volunteer clinics in Mexico that he developed. Each provides comprehensive care for the indigent and medically compromised children of the Los Cabos and Zihuatanejo areas. He has published in several dental journals and was given the Gordon Christensen Speaker Award for excellence in professional presentations.

ESTABLISHING EQUILIBRIUM IN THE 5G WORLD

The pandemic, staff shortages, debt, fast pace of life, time away from family and other factors are all adding to the accumulated stress that many dentists are experiencing. With a wonderful career choice like ours, shouldn't we be enjoying ourselves more and stressing less? Are there any simple solutions to make our quality of life better? In this discussion, we will talk about 5 "G's" that add to stress and 5 "G's" that can reduce them. These simple ideas are all easily attainable by anyone motivated enough to de-stress.

TIME	8:00am-Noon
CE HOURS	4 Practice Management

GETTING PAST 'UH-OH,' 'NO,' & HELICOPTERS

Pediatric dentistry is unique in that each appointment requires that the dentist must successfully communicate with both children and parents and manage the behavior of both as well as self. In this program, principles of behavior management are discussed and demonstrated in video footage showing actual patients in treatment how to best handle them. While dentistry often focuses on the technical aspects of our work, in this specialty, it is only through effective handling of patients that our technical work can be at its best. And the parents? They are the entertainment and promotional program, not the "problem" that most people believe.

TIME	1:00pm-4:00pm
CE HOURS	3 Academic or Clinical

GARRY BEY, DDS, SPECIALTY CERTIFICATE IN ENDODONTICS

Dr. Bey is in private practice in New York and New Jersey specializing in endodontics. He graduated from Syracuse University with a B.S. in biology. He received his D.D.S. degree and completed his endodontic residency training in endodontics at the NYU College of Dentistry. Dr. Bey lectures both nationally and internationally and has conducted classes with dentists from over 30 countries. He is a member of the American Association of Endodontists, the American Dental Association, the New York State Dental Association and he is a Past President of the Rockland County Dental Society.

SUCCESSFUL SINGLE VISIT ENDODONTICS ON BOTH VITAL & NON-VITAL TEETH

Dr. Bey teaches a technique for performing root canals in one visit with greater success than a multi-visit procedure for both vital and non-vital teeth. The advantages of single visit endodontics are many, including less postoperative pain, fewer emergency visits and greater patient satisfaction. Endodontic diagnosis, CBCT in endodontics, case selection, quick and effective anesthesia, working length determination, the creation of a glide path, the management of curved and calcified canals, instruments for more complicated cases, how to save cracked teeth and more will be discussed. Advanced nickel-titanium rotary instrumentation techniques will be included. Safe and efficient root canal irrigation is of the utmost importance for the success of root canal therapy. Effective root canal disinfection using apical negative pressure irrigation will be explained. Control the bacteria, and you control the case! Obturation using the continuous wave of condensation technique with a cordless three-dimensional operation system will be shown. Obturation without the frustration!

TIME	8:30-11:30am & 1:00-4:00pm
CE HOURS	6 Academic or Clinical
AUDIENCE	Dentists

*Sponsored by State Board of Dentistry
Attendance is free to all licensees of the Board*

Sponsored by Kerr Dental

RICK RITT, EMT-P-MA

Rick has a vast foundation of acute critical care experience. He directed the second largest American Heart Association Community Training Center in the country. In 2014 he established Dental Simulation Specialists, Inc. to serve the growing need to increase awareness, patient safety and outcomes in the dental office. He was awarded the ADSA's Peter H. Jacobson Distinguished Services Award for his contributions to dentistry. In the ASDA's nearly 60-year history, this award has been bestowed upon only four recipients who have used their dedication, skills, and tenacity to the betterment of patient care and safety in the area of dental sedation and anesthesia.

CPR (BLS)

This course trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of an AED. Reflects science and education from the American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (ECC).

TIME	9:00am-Noon
CE HOURS	3 CPR
INFORMATION	15 person max.
PRICE	\$60 per person

ANESTHESIA EMERGENCY MANAGEMENT FOR THE DENTAL TEAM

This unique and challenging program provides a didactic and hands-on clinical simulation experience that addresses the proper assessment and management of patient complications associated with minimal to moderate sedation. This course will explore simulations for the dental team as a method to improve patient safety and outcomes. Case studies will be presented where you will be engaged interactively to determine critical decisions and therapies for those patients. A look at In-Situ Simulation, its importance, frequency and effects will be reviewed. Participants will be given the opportunity to participate and demonstrate the appropriate patient management with a variety of hands-on simulations with Sim Man.

TIME	1:00pm-4:00pm
CE HOURS	3 Academic or Clinical
INFORMATION	15 person max.

SD STATEWIDE FAMILY ENGAGEMENT CENTER

Sponsored by Delta Dental of SD Foundation

POVERTY ESCAPE ROOM

The Poverty Escape Room isn't a traditional simulation. More and more groups are asking for a smaller group training to experience an understanding of the crisis of poverty. We all know you can't truly "escape" poverty in 30 minutes, but could you survive a day in the life of someone in the crisis of poverty? Participants experience a mere taste of what a day is like for an individual who lives in poverty. You will be asked to complete several important tasks while strapped for cash, time, and resources. How will you navigate it all? What happens when you run into challenges and obstacles? The hope is to

bring awareness to how poverty impacts those we work with on a daily basis. We want to begin the conversation around supports we can offer to people, and gain some understanding around what the reality is for many.

TIME	10:00am-Noon
CE HOURS	2 Practice Management
INFORMATION	80 person maximum

TRACY PALECEK, NCC, LPC, QMHP (see bio pg. 7)

POVERTY 101

Following the Poverty Escape Room, we encourage you to join us as we delve into the dynamics of poverty in our communities. We will look at the definitions of poverty, the stereotypes, and the most common barriers that people face. We will discuss how brain science and crisis living impact individuals and families and make it difficult to navigate middle class systems. Finally, we will look at research-based methods for helping those struggling in the crisis of poverty including social bridging and intense mentoring practices.

TIME	1:00pm-3:00pm
CE HOURS	2 Practice Management

PATIENT CARE AGREEMENTS PANEL

RETAIN PATIENTS & GROW YOUR PRACTICE

Learn how to design and administer an in-office membership program that works for your office and your patients. A panel, including dental office administrators, a vendor and SDDA's legal counsel, will explore the variations in program design and function including compliance with South Dakota's Primary Care Agreement Law.

TIME	8:00am-10:00am
CE HOURS	2 Practice Management

EMILY LANZEL, DDS, MS

Dr. Lanzel, received her DDS degree (2012) and MS degree in Oral Pathology (2015) from the University of Iowa College of Dentistry. She has been a faculty member in the Department of Oral Pathology, Radiology and Medicine at the University of Iowa since 2015. Her current professional memberships include: Diplomate of the American Board of Oral and Maxillofacial Pathology, Fellow of the American Academy of Oral and Maxillofacial Pathology, and Member of the American Dental Association.

COMMON ORAL LESIONS AND MANAGEMENT

This course will cover common oral lesions and how to manage them in a general dentistry setting. It will be presented in a case presentation style. Specific lesions and number of lesions to be covered will be tailored to the target group as determined by interests and available time. At the end of this course the participant will be able to better diagnose and manage some common oral lesions.

TIME	8:00am-11:00am
CE HOURS	3 Academic or Clinical

RICK RITT, EMT-P-MA *(see bio & pic pg. 10)*

ANESTHESIA EMERGENCY MANAGEMENT FOR THE DENTAL TEAM

This unique and challenging program provides a didactic and hands-on clinical simulation experience that addresses the proper assessment and management of patient complications associated with minimal to moderate sedation. This course will explore simulations for the dental team as a method to improve patient safety and outcomes. Case studies will be presented where you will be engaged interactively to determine critical decisions and therapies for those patients. A look at In-Situ Simulation, its importance, frequency and effects will be reviewed. Participants will be given the opportunity to participate and demonstrate the appropriate patient management with a variety of hands-on simulations with Sim Man.

TIME	8:30am-11:30am
CE HOURS	3 Academic or Clinical
INFORMATION	15 person max.

NATHAN PHILLIPS, DDS, OMS

Dr. Nathan Phillips attended the University of Houston and studied Biology and Psychology. Following dental school, he accepted a commission in the United States Army and was assigned to Ft. Lewis, WA. Continuing his studies, he completed his Oral and Maxillofacial Surgery residency at Madigan Army Medical Center in 2010, which included a four-month facial trauma rotation at East Texas Medical Center in Tyler, TX. Dr. Phillips joined Oral Surgery & Implant Specialists in the summer of 2017. He serves on the medical staff at Unity Point-St. Luke's Mercy Medical Center, and the Siouxland Surgery Center.

Rick Ritt with Dental Simulation Specialists, Inc. will be joining Dr. Phillips in teaching the afternoon portion of this session. *(see page 10 for his bio.)*

SEDATION & ANESTHESIA MONITORING IN THE DENTAL PRACTICE

This eight-hour seminar covers the general principles of patient care during mild, moderate, and deep sedation. The content is designed for auxiliary healthcare providers and includes preoperative assessment, pharmacology, management of pediatric patients, geriatric patients, and management of complications. Lunch will be provided.

This course has been approved by the SD Board of Dentistry for the purpose of obtaining a permit to monitor patients under anesthesia or sedation.

TIME	8am-5pm
CE HOURS	8 Academic or Clinical
PRICE	\$650.00 per person
INFORMATION	30 person maximum

SOCIAL
